Category:2016 American television series debuts Category:2010s American reality television series Category:English-language television programs Category:The CW original programming Category:Television series by CBS Television Studios Category:Television series by Warner Horizon Television Category:Television series by Warner Bros. Television Category:Television shows set in San Francisco--- abstract: 'In this work, we present a mathematical model of *epidemic spreading in a multi-dimensional cortical geometry. We consider a generalization of classical SIR and SIS epidemiological models, together with their effects of diffusion in the synaptic space that enable the transmission of information. This allows us to formulate a multi-layered infection process along the axons, in which each layer represents a given
